SUBJECT INDEX TO VOLUME 146

ABDOMEN
omentum, greater, actinomycosis, etiology, 412
surgery, laparotomy, staging in management of lymphomas, 914
paracentesis, open, routine, 795
transperitoneal relocation of ileal stoma, 953
wounds, heterotopic calcification, 371
Abnormalities and deformities
anorectal, agenesis, simplified classification, 177
face, vascular malformation, management, 168
Acidosis
hyperchloremic, complicating jejunoileal bypass, 567
Amputations
below knee, healing, cutaneous blood flow, 750
healing, muscle perfusion, 533
Anesthesia
technique, intraoral field block, 86
Aneurysms
aortic, ruptured infrarenal, atherosclerotic, mortality statistics, 344
Antibiotics
oral, evaluation, operations on colon, 193
Anus
agenesis, simplified classification, 177
Aorta
aneurysms, infrarenal, atherosclerotic, ruptured, mortality statistics, 344
coarctation, repair, evaluation of optimum time, 593
fistula, massive gastrointestinal hemorrhage, treatment, 59
thoracic, ruptures, traumatic, management, 365

BACTERIA
Serratia, significance as infectious organism, 49
Bile
acids, experimental, total pool size in dogs, effect of prosthetic gallstones, 911
jaundice, malignant, obstructive, endoprosthesis for nonoperative intubation of biliary tract, 76
Biliary tract
anatomy, relationship, of insertion of common bile duct, into primary duodenal diverticula, 628
ducts, common, anatomic relationship of insertion of, into primary duodenal diverticula, 628
common, calculus, removal, choledochoduodenostomy as adjunct, 25
stricture, benign, repair, by jejunal interposition choledochoduodenostomy, 260
injuries, iatrogenic, 430
proximal, cancer; carcinoma, 933
infection, and postoperative complications, 233
intubation, nonoperative, new endoprosthesis, in malignant obstructive jaundice, 76
reflux, without acute pancreatitis, 917
surgery, experimental, reconstruction, reflux-free, 768
Bladder
surgery, postoperative overdistention, pharmacologic management, 347
urinary, experimental, calculus formation, on sutures in rabbits, cats and dogs, 353
Blood
circulation, feet, arterial obstruction, mechanical venous pump, 583
fibrin, formation, experimental role, in pathogenesis of bacteremic shock, 535
flow, cutaneous, relation to healing of below knee amputations, 750
experimental, pancreas, during shock, 577
hemodynamics, monitoring, complete vascular exclusion for extensive hepatectomy, 709
hemorrhage, gastrointestinal, aortoenteric fistula, treatment, 59
lactic dehydrogenase, levels, carcinoma of ovary, 893
plasma, complement activation, during surgical procedures, 66
platelets, human, volume, influence of traumatic splenectomy, 889
serum, lipid concentrations, following skeletal trauma, 244
whole, phytohemagglutinin lymphoblastogenesis, analysis, 609
Blood pressure
low, experimental, hemorrhagic, pulmonary alveolar capillary membrane, 383
Blood vessels
arteries, brachial, injuries, 21
disease, atherosclerotic, ruptured infrarenal aortic aneurysms, 344
occlusive disease, pressure measurements, value, 337
peripheral, disease, impedance rheography, clinical evaluation, 173
prostheses, criteria for evaluation, comparison of vein with Dacron femoropopliteal bypasses, 714
surgery, reconstruction, intraoperative assessment of, by Doppler ultrasound, 896
arteriovenous, fistula, echocardiographic assessment of cardiac performance, 203
fistula, portacaval shunt, portal vein arterialization, 869
salvaging clotted bovine xenograft, 441
disease, arterial, occlusive, pressure measurements, 337
femoropopliteal, advanced, reversed saphenous vein grafts, 241
occlusive, phenol sympathectomy, 741
peripheral, arterial, clinical evaluation of impedance rheography, 173
malformation, face, management, total circulatory arrest, 168
shunts, corpus cavernosum-corpus spongiosum, 792
surgery, angioplasty, pedicle patch, for saphenous vein grafts, 93
arterial reconstruction, intraoperative assessment, by Doppler ultrasound, 896
bypasses, Dacron femoropopliteal, evaluation of new arterial prostheses, 714
exclusion, complete, extensive hepatectomy, hemodynamic monitoring, 709
mesentericocaval shunt, internal jugular vein, 391
portacaval shunt, arterialization of portal vein by arteriovenous fistula, 869
trauma, observed at urban hospital center, 237
veins, internal jugular, mesentericocaval shunt, 391
pancreatic, catheterization, insulin assay, localization of insulinomas and islet cell hyperplasia, 725
portal, arterialization , 869
saphenous, grafts, pedicle angioplasty, 93
reversed, grafts, for advanced femoropopliteal disease, 241
Bone
femur, diaphysis, fracture, three treatments, 572
Brain
neurotransmitters, experimental, acute hepatic coma, reversible modifications, 551
Breast
cancer; carcinoma, mammography in detection, diagnosis and management, 735
cysts, cytologic evaluation, 921
roentgenography, dose reduction, 79
surgery, mastectomy, immediate reconstruction, subcutaneous, 90

tumors, aspiration, cytologic findings, 407
cystosarcoma phyllodes, 358

CANCER
bile ducts, proximal, carcinoma, 933
breast, carcinoma, mammography in detection, diagnosis and management, 735
cells, findings, breast tumors, 407
colon, carcinoma, pathologic staging, evolution, 257
colon and rectum, carcinoma, prognosis, complicating ulcerative colitis, 46
carcinoma, in situ, 225
liver, carcinoma, experimental, metastases, capillary permeability, 884
mouth, carcinoma, control of, comparison of resection and radiation, 38
ovary, carcinoma, serum lactic dehydrogenase levels, 893
prognosis, carcinoma of colon and rectum complicating ulcerative colitis, 46
treatment, adjuvant chemotherapy and immunotherapy, in high risk patients with melanoma, 230
obstructive jaundice, endoprosthesis for nonoperative intubation of biliary tract, 76
Catheter
arterial, indwelling, malfunctioning, replacement, 790
Chemotherapy
and immunotherapy, in high risk patients with melanoma, 230
Collective review
Acute head injuries, 805
Acute reversible intrinsic renal failure, 631
Clinical and experimental transplantation in enzymatic deficiency disease, 975

Prophylactic antibiotics in surgical procedures, 469
Small intestinal bypass for treatment of morbid obesity, 455
Tourniquet in operations upon extremities, 821
Coma
hepatic, experimental, acute, neurotransmitters, role, 551
Cysts
choledochal, total excision, 254

DRAINS
use, after cholecystectomy, 191
Drugs
adrenergic blocking agent, propranolol, thyrotoxicosis, preoperative preparation, 908
anticoagulants, warfarin, -induced necrosis of skin, 695
antithrombotic, streptokinase, therapy, resistant thrombolysis and early rethrombosis, 15
chemotherapeutic, taurolin, controlled trial in established bacterial peritonitis, 721
fluorocarbon emulsion, experimental, secretion, isolated canine pancreas, 375

EDITORIAL
Cost of adverse surgical outcomes, 436
Intra-abdominal dead space and abscess formation, 789
Midline incision in patients with Crohn's disease, 435
New challenges for research in surgery, 81
Occasional slow healing wound following anorectal operations, 247
Triumphalistic oncologist, 617
Will cancer clinical trails provide answers, 949
Embolism
fat, experimental, acute autologous, 69
proteins, total hip prosthesis, 947
Enzymes
glycolytic, dehydrogenase, serum lactic, levels, carcinoma of ovary, 893
splenic histamine, experimental, tumor growth depression, 559
Esophagus
anastomosis, experimental, integrity, assessment, 545
surgery, experimental, assessment, anastomotic integrity, 545
Extremities
lower, amputations, healing, muscle perfusion, 533
feet, arterial obstruction, effect of mechanical venous pump, 583
thigh, arterial pressure measurements, arterial occlusive disease, value, 337

FACE
abnormalities and deformities, vascular malformation, management, total circulatory arrest, 168
Fractures
femur, diaphysis, treatment, 572

GALLBLADDER
calculus, experimental, prosthetic, effect on total bile acid pool size, 911
excision, drains, rational use, 191
inflammation, acute, pathogenesis, 199
surgery, choledochoduodenostomy as adjunct to choledocholithotomy, 25
choledocholithotomy, choledochoduodenostomy as adjunct, 25
cyst, choledochal, total excision, 254
Gastrointestinal tract
appendix, inflammation, chronic, 596
hemorrhage, gastric lavage, 797
performation, in infancy and childhood, 926

HEART
physiology, echocardiographic assessment of performance, in patients with arteriovenous fistulas, 203
Hemorrhage
shock, experimental, pulmonary alveolar capillary membrane, 383
Hernia
inguinal, sliding, appendiceal, 626
Hormones
replacement, experimental, effect upon liver evisceration, 524
Hypothermia
steroid, 944

IMMUNITY
and chemotherapy, in high risk patients with melanoma, 230
experimental, nerve allograft rejection, 57
Infants
newborn, perforation of gastrointestinal tract, 926
Infection
acute, of gallbladder, pathogenesis, 199
biliary tract, postoperative complications, 233
greater omentum, actinomycosis, etiology, 412
organism, Serratia, significance, 49
wounds, and microflora, effect of preparation of small intestine, 379
Instruments and apparatus
echocardiograph, assessment of cardiac performance in patients with arteriovenous fistulas, 203
mechanical venous pump, effect, on circulation of feet, 583
rheograph, impedance, in peripheral arterial disease, 173
ultrasound, Doppler, intraoperative assessment of arterial reconstruction, 896
Insulin
assay, localization of insulinomas and islet cell hyperplasia, 725
Intestines
anastomosis, experimental, lymphatic regeneration, microlymphangiographic study, 415
colon, cancer; carcinoma, pathologic staging, evolution, 257
fistula, Crohn's disease, 701
inflammation, amebic, therapy, ulcerative, 599
sigmoid, pedunculated polyps, colonoscopic and sigmoidoscopic removal, 438
surgery, orally administered antibiotics, 193
colon and rectum, cancer; carcinoma, prognosis, complicating ulcerative colitis, 46

cancer; carcinoma, in situ, 225
diverticulum, duodenal, primary, anatomic relationship of insertion of common bile duct into, 628
duodenum, diverticula, primary, anatomic relationship of insertion of common bile duct into, 628
gastrin cell population, removed by gastrectomy, 400
hematoma, intramural, posttraumatic, 221
surgery, choledochoduodenostomy as adjunct to choledocholithotomy, 25
pancreaticoduodenectomy, preservation of pylorus, 959
fistula, rectovaginal, repair, 443
ileum, surgery, stoma, transperitoneal relocation, 953
jejunum, anastomosis, Roux-en-Y hepaticojejunostomy, long term results, 161
bypass, hyperchloremic acidosis, 567
surgery, interposition, choledochoduodenostomy, repair of benign stricture of common bile duct, 260
ileocolonic, experimental, canine, reflux-free biliary tract reconstruction, 768
infarction, experimental, significance of elevated peritoneal fluid phosphate level, 43
large, submucosa, suturing, experimental, morphologic study, 211
rectum, agenesis, simplified classification, 177
foreign bodies, office removal, 209
small, fistula, massive gastrointestinal hemorrhage 59
preparation, effect, on microflora and postoperative wound infection, 379
structure, alteration, fat absorption and body weight, intestinal bypass, 757
surgery, bypass, morbid obesity, alterations in intestinal structure, fat absorption and body weight, 757
experimental, ileostomy, reservoir, using canine ileocolonic segment, 541
rectovaginal fistula, repair, 443
Roux-en-Y hepaticojejunostomy, long term results, 161

JOINTS
hip, prosthesis, total, proteins, fat emboli, 947
surgery, hip, prosthesis, total, proteins, fat emboli, 947

KIDNEYS
surgery, nephrectomy, partial, simple technique, 620
transplantation, children's, adult recipients, 387
nephrectomy, intracapsular technique, 950
survival, live related donor and cadaver organs, 519

LIPIDS
serum, concentrations, following skeletal trauma, 244
Liver
cancer; carcinoma, metastases, experimental, capillary permeability, 884
coma, experimental, acute, modifications of neurotransmitters, 551
surgery, experimental, evisceration, hormone replacement, effect, 524
hepatectomy, extensive, hemodynamic monitoring during complete vascular exclusion, 709
Roux-en-Y hepaticojejunostomy, long term results, 161
transplantation, experimental, allografts, canine, active enhancement, with polyspecific antigen, 783
Lungs
blood supply, experimental, capillary, alveolar membrane, during hemorrhagic hypotension, 383
function, acute, failure, portable roentgenography, limitations, 705
Lymphatic system
roentgenography, experimental regeneration, microlymphangiographic study, following intestinal anastomosis, 415

METABOLISM
response, experimental, in shock, 182
Mouth
cancer; carcinoma, comparison of resection and radiation, 38
Muscles
myasthenia gravis, thymectomy in patients more than 40 years of age, 54
perfusion, healing of below knee amputations, 533

NERVES
cranial, vagus, vagotomy, peptic ulcer, 349
transplantation, experimental, allograft rejection, immunology, 57
Nervous system
sympathetic, phenol sympathectomy, for vascular occlusive disease, 741
Nutrition
disorder, experimental, effect of, and hyperalimentation on wound healing, 33

OBESITY
morbid, intestinal bypass, alterations in intestinal structure, fat absorption and body weight, 757
Ovary
cancer; carcinoma, serum lactic dehydrogenase levels, 893

PANCREAS
blood flow, experimental, during shock, 577
physiology, experimental, secretory, isolated canine, perfused with fluorocarbon emulsion, 375
secretion, experimental, isolated canine, perfused with fluorocarbon emulsion, 375
surgery, pancreaticoduodenectomy, preservation of pylorus, 959
tumors, insulinomas, localization, islet cell hyperplasia, by pancreatic vein catheterization, 725
Parathyroid glands
function, after total thyroidectomy, 773
Penis
shunts, corpus cavernosum-corpus spongiosum, 792
Peritoneum
fluid, experimental, elevated, phosphate level, significance in patients with intestinal infarction, 43
inflammation, bacterial, controlled trial of taurolin, 721
lavage, diagnostic, technique, 446
surgery, relocation of ileal stoma, 953
Prosthesis
arterial, new, evaluation, comparing vein with Dacron femoropopliteal bypasses, 714
endo-, for nonoperative intubation of biliary tract in malignant obstructive jaundice, 76

RADIATION
nuclear casualties, surgical care, 877
therapy, comparison, with resection in cancer of mouth, 38
Roentgen rays
diagnosis, dose reduction in mammography, 79
experimental, microlymphangiographic study of lymphatic regeneration following intestinal anastomosis, 415
mammography, detection, management, carcinoma of breast, 735
portable, diagnosis, chest, limitations, in acute respiratory failure, 705

SALIVARY GLANDS
parotid, inflammation, recurrent, surgical management, 419
Serotonin
experimental, in gastric pepsin secretion, 929
Shock
bacteremic, experimental, role of fibrin formation, 535
experimental, metabolic response, 182
organ blood flow, pancreas, 577
hemorrhagic, experimental, fluid infusions, serum protein concentrations, 745
experimental, pulmonary alveolar capillary membrane, 383

Skin
necrosis, warfarin-induced, 695
tumors, melanomas, malignant, treatment, 779
Spleen
histamine forming enzyme activity, experimental, tumor growth depression, 559
surgery, traumatic, influence, on volume of human platelets, 889
Steroids
hypothermia, 944
Stomach
antrum, gastrin cell population, removed by gastrectomy, 400
fistula, Crohn's disease, 701
lavage, for hemorrhage in upper gastrointestinal tract, 797
lesions, experimental, stress induced, ischemia, in piglets, 217
pylorus, preservation, pancreaticoduodenectomy, 959
secretion, experimental, pepsin, role of serotonin, 929
surgery, gastrectomy, gastrin cell population removed by, 400
ulcers, peptic, estimation of antral and duodenal gastrin cell population removed by gastrectomy, 400
peptic, treatment, vagotomy and drainage, 349

shock, blood flow, pancreas, 577
hemorrhage, serum protein fluid infusions, 745
significance of elevated peritoneal fluid phosphate level in patients with intestinal infarction, 43
studies on capillary permeability of liver metastases, 884
tumor growth depression, splenic histamine forming enzyme, 559
urinary bladder calculus formation on sutures, 353
wound strength in normal, radiated and infected tissues closed with polyglycolic acid and chromic catgut sutures, 901
morbidity and mortality, statistics, ruptured atherosclerotic infrarenal aortic aneurysms, 344
postoperative complications, biliary tract infections, 233
overdistention of bladder, pharmacologic management, 347
postoperative study, biliary ductal system, iatrogenic injuries, 430
chronic appendicitis, 596
coarctation of aorta, optimum time, surgical repair, 593
comparison of resection and radiation in cancer of mouth, 38
effect of preparation of small intestine on microflora and postoperative wound infection, 379
evaluation of renal transplant survival between recipients of live related donor and cadaver organs, 519
long term, behavior of reversed saphenous vein grafts, 241
results of Roux-en-Y hepaticojejunostomy, 161
mesentericocaval shunt with internal jugular vein, 391
thyroidectomy, morbidity and mortality, 423
transplantation, children's kidneys, adult recipients, 387
vagotomy and drainage, peptic ulcer, 349
preoperative care, thyrotoxicosis, propranolol, 908
reconstructive, arterial, intraoperative assessment, by Doppler ultrasound, 896
new arterial prostheses, evaluation, with Dacron femoropopliteal bypasses, 714
role, in care of nuclear casualties, 877
scrub preparations, comparative evaluation, 63
technique, colonoscopic prolapse and sigmoidoscopic removal of pedunculated polyps, 438
corpus cavernosum-corpus spongiosum shunts, 792
diagnostic peritoneal lavage, 446
gastric lavage for hemorrhage in upper gastrointestinal tract, 797
intracapsular, transplant nephrectomy, 950
intraoral field block anesthesia for extraoral lesions, 86
management of recurrent parotitis, 419
mesentericocaval shunt with internal jugular vein, 391
modified, lateral internal sphincterotomy, 623
pedicle patch angioplasty for saphenous vein grafts, 93
portacaval shunt, arterialization of portal vein, 869
preservation of pylorus in pancreaticoduodenectomy, 959
repair of benign stricture of common bile duct by jejunal interposition choledochoduodenostomy, 260
of rectovaginal fistula, 443
of vesicovaginal fistula with associated urethral loss, 250
replacement of malfunctioning indwelling arterial catheter, 790
routine open abdominal paracentesis, 795
Roux-en-Y hepaticojejunostomy, long term results, 161
salvaging clotted bovine xenograft used as arteriovenous fistula, 441
simple, partial nephrectomy, 620
sliding appendiceal inguinal hernia, 626
subcutaneous mastectomy, immediate reconstruction, 90
total excision of choledochal cyst, 254
transperitoneal relocation of ileal stoma, 953
Surgical pros and cons, 83–85, 248–249, 437, 619
Sutures
catgut, chromic, experimental, and polyglycolic acid, wound strength in normal, radiated and infected tissues, 901
experimental, urinary bladder calculus formation, 353
polyglycolic acid, experimental, and chromic catgut, wound strength in normal, radiated infected tissues, 901

THORAX
roentgenography, portable, limitations, acute respiratory failure, 705
Thrombolysis
resistant, early rethrombosis in streptokinase therapy, 15

Thrombosis
recurrent, early, resistant thrombolysis in streptokinase therapy, 15
Thymus gland
surgery, in patients more than 40 years of age with myasthenia gravis, 54
Thyroid
disease, thyrotoxicosis, propranolol preoperative preparation, 908
surgery, thyroidectomy, morbidity and mortality, 423
thyroidectomy, total, function of parathyroid glands, 773
Transplants
grafts, canine liver, experimental, active enhancement, with polyspecific antigen, 783
nerve allografts, experimental, rejection, immunology, 57
saphenous vein, pedicle patch angioplasty, 93
venous, reverse saphenous, for advanced femoropopliteal disease, 241
xenografts, clotted bovine, used as arteriovenous fistula, technique for salvaging, 441
kidneys, children's, adult recipients, 387
nephrectomy, intracapsular, technique, 950
survival, live related donor and cadaver organs, 519
liver, experimental, canine, active enhancement, with polyspecific antigen, 783
Trauma
abdominal, iatrogenic, biliary ductal system, 430
chest, ruptures, aorta, management, 365
duodenum, hematoma, experimental, intramural, 221
liver, influence of splenectomy, on volume of human platelets, 889
skeletal, alterations in serum lipid concentrations, 244
surgical brachial artery, management, 21
vascular, observed at urban hospital center, 237
Tumors
cystosarcoma phyllodes, 358
extraoral, intraoral field block anesthesia, 86
fibrosarcoma, experimental, splenic histamine depression, enzyme activity, 559
hematoma, post-traumatic obstructing intramural, duodenum, selective management, 221
insulinomas, localization, islet cell hyperplasia, pancreatic vein catheterization and insulin assay, 725
lymphoma, management, staging, laparotomy, 914
malignant, breast, aspiration, cytologic findings, 407
obstructive jaundice, endoprosthesis, nonoperative intubation of biliary tract, 76
melanoma, adjuvant chemotherapy and immunotherapy in high risk patients, 230
malignant, skin, treatment, 779
polyps, pedunculated, sigmoid colon, colonoscopic prolapse and sigmoidoscopic removal, 438
Ureters
calculus, pregnancy, management, 604
Uterus
pregnancy, ureteral calculi, management, 604
Vagina
fistula, repair of rectovaginal, 443
vesicovaginal, with associated urethral loss, repair, 250
surgery, fistula, vesicovaginal, repair, 250
Water
distribution, experimental, between extracellular and intracellular compartments of incised wounds, 1
Weight
body, alterations in, and in intestinal structure and fat absorption, after intestinal bypass for morbid obesity, 757
Wounds
abdominal, heterotopic calcification, 371
healing, experimental, effects of malnutrition and hyperalimentation, 33
incised, experimental, distribution of water between extracellular and intracellular compartments, 1
infection, postoperative, microflora, effect of preparation of small intestine, 379
nuclear, surgical care, 877
radiated, infected, closure, experimental, polyglycolic acid and chromic catgut sutures, strength, 901

SUBJECT INDEX TO VOLUME 147

ABDOMEN
surgery, incisions, closure, double loop mass technique, 414
laparoscopy, principles and hazards, 705
trauma, penetrating, evaluation of carbenicillin and comparison of clindamycin and gentamicin combined therapy, 525
upper, pain, persistent, value of duodenal bile examination in evaluation, 177
Abnormalities and deformities
congenital, symptomatic, aortic arch, 673
Aneurysms
abdominal, cuff, rotated, for separation of aortic graft and duodenum, 84
aortic, abdominal, resection, heparin bonded shunts for perfusion of renal artery, 859
Antibiotics
preparation, intestine, role in reduction of primary wound sepsis after operations on colon and rectum, 909
preventative, combination of cephalothin-tobramycin, 713
Antigens
carcinoembryonic, serial determinations, use to predict recurrence of carcinoma of colon and time for second look operation, 208
Aorta
abdominal, aneurysms, complex, resection, heparin bonded shunts for perfusion of renal artery, 859
distensibility, effect of age, 211
arch, anomalies, symptomatic, 673
grafts, rotated aneurysm cuff for separation of duodenum, 84
Ascorbic acid
requirements, in postoperative patients, 49

BACTERIA
Escherichia coli, shock, experimental, pathologic study, response to adrenocorticosteroids, 726
shock, experimental, response to adrenocorticosteroids, 545
Bile
duodenal, examination, value, in persistent pain in upper part of abdomen, 177
Biliary tract
obstruction, after gastrectomy for cancer of stomach, 401
roentgenography, endoscopic retrograde, in diagnosis and management of nonalcoholic pancreatitis, 333
surgery, experimental, diversion, effect on exocrine function of pancreas, 343
interneural incision, 21
Bladder
function, following radical hysterectomy, 558
incontinence, anterior cystourethropexy and vaginourethroplasty, 711
Blood
cancer; carcinoma, leukemia, surgical treatment, 397
coagulation, experimental changes in shock, 6
flow, experimental, gastric, changes, 753
hematocrit, optimal, in critically ill postoperative patients, 363
hemodynamics, experimental, lipids, insulin and glucagon, levels, acute pancreatitis, 577
hemoglobin, experimental, crystalline, solution, plasma oncotic pressure during and after blood exchange, 379
hemorrhage, acute respiratory failure, colloid osmotic and pulmonary wedge pressures, 537
transcatheter embolization of autologous clot in management, associated with fractures of pelvis, 849
hypercalcemia, in thyrotoxicosis, 694
hypokalemia, resuscitation from multiple trauma, 18
leukocytes, perioperation suppression, migration inhibition assay, in elective operations, 717
plasma, experimental, oncotic pressure, during and after blood exchange with crystalline hemoglobin solution, 379
platelets, stored and microaggregate formation, 507
potassium, experimental, and intracellular changes in vascular smooth muscle during hemorhagic shock, 25
sodium, intracellular, experimental, and potassium changes, in vascular smooth muscle during hemorrhagic shock, 25
volume, and hemodynamic changes, in relation to extensive vascular operations, 369
Blood pressure
high, portal, and hepatic cirrhosis, simultaneous treatment, by splenohepatoplasty, 391
Blood vessels
anastomosis, experimental, end-to-side, microvascular, 339
arteries, axillofemoral and femorofemoral, bypass, 12 year experience, 881
femoral, thromboembolectomy, longitudinal arteriotomy, 239
hepatic, infusion of Corynebacterium parvum and chemotherapy, 897
reconstruction, high risk, for limb salvage, expanded polytetrafluoroethylene and autologous saphenous vein grafts, 749
grafts, vein, saphenous, autologous, in high risk arterial reconstructions for limb salvage, 749
roentgenography, intraoperative, for vascular reconstructions, 853
surgery, axillofemoral and femorofemoral bypass, 12 year experience, 881
extensive, blood volume and hemodynamic changes, 369
femoropopliteal, bypass, saphenous vein, proximal anastomosis, technique, 766
reconstruction, umbilical vein as arterial substitute, 721
reconstruction, limb salvage, for soft tissue and skeletal sarcomas, 891
veins, experimental, grafts, autogenous, morphologic changes, effect of diminished distal blood flow, 189
grafts, holder, 92
saphenous, autologous, grafts, in high risk arterial reconstructions for limb salvage, 749
femoropopliteal bypass, technique for proximal anastomosis, 766
preserved, allografts, for vascular access, 385
thrombi, in morbidly obese, 63
umbilical, arterial substitute in femoropopliteal reconstruction, 721
Bones
scans, preoperative and follow-up, in carcinoma of breast, 745
Breast
cancer; carcinoma, contralateral, histopathologic study of, 682
female, tumor-host interrelationships, 43
locally advanced, aggressive multimodality approach, 75
preoperative and follow-up bone scans, 745
Stage III, preoperative radiotherapy, 497
surgery, postmastectomy defects, skin grafting, 245
surgery, histopathologic study, patients with carcinoma of contralateral, 682
mammoplasty, augmentation, evaluation, 596
mastectomy, radical, neoclassical, 920
tumors, metastatic, estrogen receptor data, 842
Burns
chemical, and skin preparation solutions, 534

treatment, experimental, resuscitation, intravenous fluid, pulmonary effects, 161

CANCER
blood, carcinoma, leukemia, surgical treatment, 397
breast, carcinoma, female, tumor-host interrelationships, 43
carcinoma, locally advanced, aggressive multimodality approach, 75
preoperative and follow-up bone scans, 745
Stage III, postoperative radiotherapy, 497
surgery, postmastectomy defects, skin grafting, 245
contralateral, carcinoma of, histopathologic study of, 682
treatment, radiotherapy, preoperative, Stage III, 497
colon, carcinoma, recurrence, use of serial carcinoembryonic antigen determinations to predict, and time for second look operation, 208
liver, carcinoma, metastases, treatment, hepatic artery infusion chemotherapy and external radiotherapy, 13
lung, carcinoma, surgical treatment, by stage and cell type, 865
carcinoma, staging, radionuclide, 175
stomach, carcinoma, gastrectomy, biliary obstruction, 401
thyroid, carcinoma, struma lymphomatosa and, 350
Chemotherapy
infusion, hepatic artery, external radiotherapy, treatment of hepatic metastases, 13
intra-arterial, hepatic, of Corynebacterium parvum, 897
Collective review
Choledochal cyst, 444
Compartmental syndromes, 943
Current concepts of undescended testis, 617
Giant hemangiomas of liver, 783
Immunology in cancer, 103
Immunotherapy for cancer, 769
Platelets, thromboembolism and clinical utility of antiplatelet drugs, 257
Primary carcinoma of gallbladder, 929
Pulmonary sequestration, 609
Thoracoscopy in perspective, 433
Understanding postoperative fatigue, 97
Corynebacterium
parvum, hepatic arterial infusion, and chemotherapy, 897
Cysts
mesenteric, in infancy and childhood, 182

DRUGS
adrenocorticosteroid, experimental, Escherichia coli shock, 545
experimental, pathologic study of Escherichia coli shock, 726
carbenicillin, evaluation, and comparison of clindamycin and gentamicin combined therapy in penetrating abdominal trauma, 525
clindamycin and gentamicin, combined therapy, comparison, and evaluation of carbenicillin, in penetrating abdominal wounds, 525
corticosteroids, in patients with high risk of fat embolism syndrome, 358
dimethylhydrazine, experimental, colonic protection, by high fiber diet, 503
heparin, bonded shunts, perfusion of renal artery during resection of complex abdominal aortic aneurysms, 859
histamine-two receptor antagonist, cimetidine, for treatment of hemorrhagic gastritis, 737
norepinephrine, experimental, pretreatment, effect on survival cardiac allotransplants, 541

EDITORIAL
Augury and lament for surgical scrub, 758
Carotid endarterectomy and common sense, 235
Patient responsibility, 588
Prophylactic antibiotic puzzle, 80
Surgeon's assistant, 410
Urgent gastrointestinal tract operations upon patients whose wounds heal poorly, 913
Embolism
fat, syndrome, corticosteroids in patients with high risk, 358
Enzymes
changes, preoperative and postoperative, in patients with gallstones, 219
Esophagus
anastomosis, neonate, long term results, 30
inflammation, reflux, treatment, parietal cell vagotomy facilitates fundoplication, 593
surgery, diverticulum repair, resection with myotomy and muscle closure, 599
Extremities
salvage, expanded polytetrafluoroethylene and autologous saphenous vein grafts in high risk arterial reconstructions, 749
surgery, soft tissue and skeletal sarcomas, major vasular reconstruction, 891
upper, high tension electrical injury, 38

FAT
malabsorption, Roux-en-Y hepaticojejunostomy, 561

GALLBLADDER
calculus, preoperative and postoperative enzyme changes, 219
Geriatrics
distensibility of abdominal aorta, 211

HEAD
impact, football, neck muscles, 513
Heart
transplantation, experimental, effect of norepinephrine pretreatment, 541
Hormones
estrogen receptor, metastatic tumors of breast, 842
gonadotropin, human chorionic, and alpha fetoprotein, evaluation in benign and malignant testicular disorders, 167

INFANTS
mesenteric cysts, and in childhood, 182
newborn, esophageal anastomosis, long term results, 30
Infection
clostridial, gas-producing, 65
nonclostridial, gas-producing, 65
peritoneum, generalized, 231
Instruments and apparatus
colposcope, in anorectal disease, 924
cystometer, carbon dioxide, bladder function following radical hysterectomy, 558
laparoscope, principles and hazards, 705
ultrasonics, gray scale, rose bengal scintigraphy, jaundiced, 321
vein graft holder, to prepare, 92
Insulin
metabolism, experimental, in burn-injured rat, glucose kinetics and responsiveness, 565
Intestines
anastomosis, experimental, colostomy closure, open and closed methods, 888
colon, cancer; carcinoma, recurrence, use of serial carcinoembryonic antigen determinations to predict, and time for second look operation, 208
experimental, protection from dimethylhydrazine by high fiber diet, 503
surgery, experimental, colostomy closure, comparison of open and closed methods of anastomosis, 888
second look, 208
colon and rectum, antibacterial preparation, in reduction of primary wound sepsis after operations, 909
diverticulum, pharyngoesophageal, repair, resection with myotomy and muscle closure, 599
duodenum, bile examination, value in persistent pain in upper part of abdomen, 177
surgery, pancreaticoduodenectomy, 529
rotated aneurysm cuff for separation of aortic graft, 84
intussusception, treatment, surgical, 574
jejunum, surgery, hepaticojejunostomy, Roux-en-Y, fat malabsorption, 561

surgery, Roux-en-Y, peritoneolysis, 86
jejunum-ileum, bypass, conversion to gastric bypass, to maintain weight loss, 353
bypass, urolithiasis, 225
mesentery, cysts, in infancy and childhood, 182
rectum, ano-, disease, colposcopy, 924
surgery, bypass, jejunoileal, conversion to gastric bypass to maintain weight loss, 353
colon and rectum, antibacterial preparation, in reduction of primary wound sepsis, 909
jejunoileal bypass, urolithiasis, 225
Koch ileostomy pouch, modification in technique, 761
treatment, of intussusception, 574

Isotopes
hydrogen ion, experimental, and cation, effect on canine acid and gastrin output, 27
radionuclide, scintiscans, carcinoma of lung, staging, 175
scintiscan, radionuclide, carcinoma of lung staging, 175
rose bengal, gray scale ultrasonography, jaundiced patients, 321

KIDNEYS
transplantation, cadaveric preservation, without hyperosmolar intracellular hypothermic washout solution and cold storage, 56
fulminant pulmonary infections, 583

LIVER
blood supply, normothermic exclusion, for extensive hepatectomy, 689
cancer; carcinoma, treatment, hepatic artery infusion chemotherapy and external radiotherapy, 13
cirrhosis, experimental, induced, changes in gastric blood flow, 753
and portal hypertension, simultaneous treatment by splenohepatoplasty, 391
regeneration, experimental, effect of splanchnic viscera removal, 193
surgery, experimental, splanchnic viscera removal, effect on canine liver regeneration, 193
hepatectomy, normothermic vascular exclusion, 689
hepaticojejunostomy, Roux-en-Y, fat absorption, 561

Lungs
cancer; carcinoma, staging, radionuclide scans, 175
surgical treatment, by stage and cell type, 865
function, experimental, intravenous fluid therapy in burn resuscitation, 161
experimental, positive end expiratory pressure, beneficial and harmful effects, 518
failure, acute, colloid osmotic and wedge pressures, following hemorrhage, 537
infections, fulminant, in renal transplant recipients, 583
surgery, carcinoma, treatment by stage and cell type, 865

Lymphatic system
lymph nodes, biopsy, to improve yield, 376

Lymphedema
experimental, microsurgical techniques, 877

METABOLISM
lactate, source of, in shock, 697
phosphate, experimental, high energy, effect of prolonged ischemia in skeletal muscle, 872

Muscles
neck, football and head impact, 513
skeletal, experimental, high energy phosphate metabolism, effect of prolonged ischemia, 872
vessels, smooth, experimental, intracellular sodium and potassium changes, in hemorrhagic shock, 25

NECK
wounds and injuries, penetrating, management, 845

Nerves
cranial, vagus, division, parietal cell, facilitates fundoplication, in treating reflux esophagitis, 593
facial, preservation, parotidectomy, 94

Nutrition
elemental diets, use, in infants and children, 701
high fiber diet, experimental, colonic protection from dimethylhydrazine by, 503

OBESITY
morbid, venous thromboembolism, 63

Organs
protection, experimental, during ischemia, 740

Ovary
excision, vaginal oophorectomy, technique, 765

PANCREAS
function, experimental, exocrine, effect of biliary diversion, 343
inflammation, experimental, acute, lipids, insulin and glucagon levels, 577
nonalcoholic, endoscopic retrograde cholangiopancreatography, 333
surgery, pancreaticoduodenectomy, 529

Parathyroid glands
disease, hyperparathyroidism, primary, subtotal parathyroidectomy, 1
surgery, subtotal excision of, primary hyperparathyroidism, 1

Parotid gland
surgery, tumor, preservation of facial nerve, 94

Pathology
study, experimental, Escherichia coli, shock, respose to adrenocorticosteroids, 726

Pediatrics
elemental diets in, and infants and children, 701

Pelvis
fracture, management of bleeding, transcatheter embolization of autologous clot, 849

Peritoneum
inflammation, infective generalized, 231
lavage, diagnositc, open, technique, 241
surgery, peritoneolysis in reconstruction of Roux-en-Y loop, 86

Pharynx
surgery, diverticulum repair, resection with myotomy and muscle closure, 599

RADIATION
therapy, external, hepatic artery infusion chemotherapy, treatment of hepatic metastases, 13
following prior thyroidectomies, 903
preoperative, Stage III carcinoma of breast, 497

Roentgen rays
diagnosis, cholangiopancreatography, endoscopic retrograde, for management of nonalcoholic pancreatitis, 333

SHOCK
bacterial, Escherichia coli, experimental, pathologic study, response to adrenocorticosteroids, 726
Escherichia coli, experimental, response to adrenocorticosteroids, 545
endotoxin, experimental, effect of glucose-insulin-potassium on survival, 405
experimental, lactate, anatomic and metabolic source, 697
hemorrhagic, experimental, intracellular sodium and potassium changes in vascular smooth muscle, 25
hypovolemic-endotoxin, experimental, blood coagulation changes, 6
septic, experimental, model for study, 68

Sinuses
perineal, chronic, cure with gluteus maximus flap, 417

Skin
chemical burns, bacteriology, preparation solutions, 534
grafts, technique for postmastectomy defects, 245

Spleen
surgery, reconstructive, simultaneous treatment of portal hypertension and hepatic cirrhosis by, 391

Steroids
adrenocortico-, experimental, treatment, Escherichia coli shock, 545

experimental, treatment, pathologic study of Escherichia coli shock, 726
Stomach
blood supply, experimental, changes, in induced cirrhosis of liver, 753
cancer; carcinoma, biliary obstruction after gastrectomy, 401
disease, protein losing, surgical and pathologic aspects, 33
inflammation, hemorrhagic, treatment, with cimetidine, 737
pylorus, surgery, anterior hemipylorectomy, technique, 421
secretion, experimental, acid and gastrin output, cation and hydrogen ion effect, 27
surgery, bypass, conversion of jejunoileal bypass, to maintain weight loss, 353
fundoplication, parietal cell vagotomy, reflux esophagitis, 593
and pathologic aspects of protein losing gastropathy, 33
Surgeon's library

Surgical pros and cons, 81-83; 237-238; 411-413; 590-592; 759-760; 915-919
Syndromes
fat embolism, corticosteroids in patients with high risk, 358

Testes
cancer; carcinoma, benign disorders, human chorionic gonadotropin and alpha fetoprotein, 167
disease, benign and malignant, evaluation of human chorionic gonadotropin and alpha fetaprotein, 167
surgery, vasectomy, long standing, changes in epithelial surface of vas deferens, 328
vas deferens, epithelial surface, changes induced by vasectomy of long standing, 328
Thromboembolism
venous, in morbidly obese, 63
Thrombosis
arterial, femoral, longitudinal arteriotomy, 239
Thyroid
cancer; carcinoma, and struma lymphomatosa, 350
disease, struma lymphomatosa, and carcinoma, 350
thyrotoxicosis hypercalcemia, 694
surgery, thyroidectomy, following prior irradiation of head, neck and upper part of chest, 903
Transplants
grafts, aortic, rotated aneurysm cuff, 84
experimental, venous, autogenous, morphologic changes, effect of diminished distal blood flow, 189
venous, holder, 92
saphenous, autologous, in high risk arterial reconstructions for limb salvage, 749

preserved, for vascular access, 385
heart, experimental, effect of norepinephrine pretreatment, 541
kidney, fulminent pulmonary infections, 583
organ preservation, cadaveric renal, hyperosmolar, intracellular hypothermic washout solution and cold storage, 56
survival, experimental, of cardiac allotransplants in dogs, effect of norepinephrine pretreatment, 541
Trauma
abdominal, penetrating, evaluation of carbenicillin and comparison of clindamycin and gentamicin combined therapy, 525
electrical, high tension, upper extremity, 38
multiple, hypokalemia in resuscitation, 18
thermal, burns, experimental, insulin, glucose kinetics and responsiveness, 565
Tumors
breast, metastatic, estrogen receptor data, 842
sarcoma, skeletal, soft tissue, extremities, major vascular reconstruction, 891
surgery, parotidectomy, preservation of facial nerve, 94
URETHRA
surgery, anterior, vaginourethroplasty, for incontinence, 711
Uterus
surgery, radical, bladder function following, 558
VAGINA
surgery, oophorectomy, method, 765
vaginourethroplasty, for incontinence, 711
WOUNDS
dressings, problem of adherence, 185
neck, penetrating, management, 845
